

PREFACE

It is now 10 years since the first edition of our book was warmly received. I was encouraged by the International Society for the Study of Trophoblastic Disease to produce this further (third) edition for publication on the ISSTD web site. We dedicate this edition to the memory of Edward Newlands who died in 2005. We welcome Michael Seckl to the co-editorship and are very grateful to all the authors (particularly the new ones) who have taken so much time and trouble to make this as international and up-to-date a volume as possible. The desktop publishing has been entirely the work of Karen Henderson in Sheffield, UK.

Our best wishes go to all in the Trophoblastic Disease community.

Barry W. Hancock OBE, MD, FRCP, FRCR
Sheffield, UK
